NATIONAL BANKS VIOLATING LAW

Throughout South They Are Lending Money on Real Estate Mortgages.

Washington, February 5.—Charges that national banks throughout the South openly violate the national banking law by lending money on real estate mortgages were made by Sol. Wexler, a New Orleans banker, to-day before the House Currency Reform Committee. He told the committee the national banking law should be amended to legalize loans on real estate securities, and said he knew of banks in Louisiana, Mississippi and Alabama loaning their funds on real estate to accommodate farmers. He recommended that such loans be legalized and limited to eight months' paper, to allow the farmer to "make his crop."

"The farmer is the only man who is not allowed to take his stock in trade into a national bank and secure credit upon it," said Mr. Wexler.

SUSPICION AROUSED BY SOARING PRICES

High Figures of Crude Oil Leads Department of Justice to Investigation.

Washington, February 6.—The soaring price of crude oil is being investigated by the Department of Justice in connection with its inquiry to determine whether the decree dissolving the Standard Oil Company has been violated. The government wants to know whether any of the former subsidiaries of the trust have created conditions responsible for the enormous rise, and whether there has been any concerted action. Information in possession of the department alleges that some of the big companies have a year's supply of crude oil in their tanks, and the present high price does not affect them, but is a burden upon smaller concerns.

The entire oil investigation in all probability will be completed before the end of February, and a report submitted to Attorney-General Wickham by Charles B. Morrison and Oliver E. Pagan, attorneys in immediate charge of the inquiry. Mr. Morrison conferred with the Attorney-General late to-day.

The second warrants issued by United States District Judge Meek, of Dallas, for the arrest of John D. Archibald, H. C. Folger, Jr., and W. C. Teagle, of the Standard Oil, for the alleged criminal violation of the Sherman act, are believed to have reached New York by this time. The fact that they have not yet been served is said to indicate that the Attorney-General has directed that they, like the original warrants, be withheld until he is satisfied that the government has sufficient evidence to sustain a case in Texas.
